

Environmental Policy Statement

Royston Labels Ltd is committed to reducing its impact on the environment through a philosophy of continual improvement in all areas of its business operation. The company ensures that it complies with all relevant legislation and wherever possible aims to exceed these mandatory requirements with all of its business activities conducted in accordance with sound environmental policies

Royston Labels Ltd has a demonstrable programme of on-going investment in the latest printing technology, together with all associated equipment. With its high awareness and understanding of environmental issues, the company incorporates both the promotion of superior energy efficiency and the minimisation of waste generation into all aspects of this investment spend.

Incorporation of environmental benefits are engineered into all new product innovations wherever possible, utilising recycled and/or recyclable substrates, environmentally friendly inks and the employment of more efficient working practices to help both the business and our customers to reduce their impact on the environment.

The company identifies and works extremely closely with those suppliers who can in turn demonstrate their commitment to the environment and instigates a collaborative working approach to research and developing new environmentally beneficial innovations which help to reduce the reliance on non-renewable resources and the use of virgin materials.

The company's environmental policy is fully communicated and adhered to by all employees and is openly available to all customers and suppliers to the business.
