

New Antimicrobial labels

Help stop the growth
and spread of bacteria!

- ✓ Innovative antimicrobial technology for labels
- ✓ When bacteria land on the surface of the label the active agent disrupts their metabolism, prevents their ability to reproduce, ultimately resulting in their death
- ✓ Effective against MRSA, E-Coli, Salmonella, Listeria and many other organisms
- ✓ Helps provide peace of mind for those seeking optimal hygiene conditions

Because hygiene matters!

**Come and see us at Easyfairs Packaging
Innovations Show - 11th & 12th February 2009**

We would be delighted for you to visit our stand where we can show you our latest label innovations and discuss how we can work with you to help give your products the 'wow' factor.

Stand no. 189, Hall 12
